PERSONAL PROJECTS

Pandemic Tracker (10/2020)
- The project is about showing the Total Number of **People Affected** in this pandemic, Number of **People Died** and Number of **People Recovered** from **COVID-19**.
- Link to the project - https://pandemic-tracker-6ff17.web.app/

Expense Tracker (08/2020)
- This project is designed to help the user to **keep track of him/his EXPENSES** , Shows how much remaining **balance from the actual amount** , Keep track of the **Money spent of items with their names** and **Income and Expenses of the users.**
- Link to the project - https://ram-barath.github.io/Expenses-Tracker/

Portfolio/Resume Website (07/2020)
- This project is designed to **Showcase my Skills** to others and to check my skills **to know how good I'm in web development**. This is more of a resume kind of website to show my projects and skills to the Recruiters.
- Link to the project - https://ram-barath.github.io/

WhatsApp Bot (05/2020)
- This is a fun project using **Python and Selenium**. This bot **sends the amount of message [What user gives as Input] to the particular person or Group by just executing the program.**
- Link to the project files - https://github.com/Ram-Barath/Whatsapp-Bot

SKILLS

Java HTML5 CSS3 JavaScript Github SQL Photoshop Figma Adobe XD React Node.Js SERVLET VS Code Payment Gateway Firebase

ACHIEVEMENTS

Hackathon Participation - MIT (03/2019)
In this hackathon we have created a mobile app that will use the mobile signal to keep track of all the mobile signals and take out the poor signal areas and inform it to the local service providers to improve the bandwidth of their network.

ORGANIZATIONS

Zealous Information Technology Association [ZITA] (04/2019 - Present)
Head of All the students in the Association. I have successfully conducted many Events for the students in my association and also students from other colleges.

Computer Society Of India (04/2018 - Present)
Active Member of CSI. Participated in my events and won some prices.
